ASTROPHYTUM myriostigma - 1" seedlings
"Bishop's Cap." Beautiful silvery-gray usually five ribbed, spineless. (Pl. 69)

BISHOP'S CAP - See Astrophytum myriostigma

BOXING GLOVE - See Opuntia mammillata

C. orbiculatus hybrid - 2½" to 3½" seedlings
Probably one of the most popular plants for dish gardens. Erect dark green, truly cactoid in appearance.

C. hybrid - 4" to 5" seedlings

CHAMAECERUS silvestrii - 1½" rooted cuttings
with small branches
"Peanut Cactus." Small, round, silvery green branches about the size of a peanut. (Pl. 36)

CLISTOCACTUS baumanii - 2½" seedlings
Small, columnar plants with attractive yellow spines.

ECHINOPSIS hybrids - 1" to 1½" seedlings
Attractive, dark green, globular plants.

HARRISIA eriophora - 2" seedlings
Sturdy columnar type.

H. hybrid robusta - 2" to 3" seedlings
Slender curved plants of unusual dark maroon color. Especially recommended for tails.

H. justbortii - 4" to 5" rooted cuttings
Shiny dark green with only a few short stiff spines. These are tip cuttings from mature plants.

H. martiiii - 4" to 4½" rooted cuttings
(Syn. .riocerous martini) Dark green, long stiff spines.

**MAMILLARIA bocasana** - 1" to 1½" seedlings ............
Entire plant covered with fine silky white hair, very popular plant.

**M. compressa** - 1" to 1½" seedlings ............
Stiff, flattened, white spines. (Fig. Pg. 43)

**M. nigra** - 1" to 1½" ............
Olive green plant body, dark spines on prominent tubercles. Grows easily, mature plant flower freely.

**MONVILLA diffusa** - 2½" to 3½" seedlings ............
One of the best plants for "Tails" in novelty animal pots. Dark green with light soft spines.

**M. diffusa** - 4" rooted cuttings ............
Sturdy upright growth, dark green color. Similar to M. compressa serpentinus in growth habit.

**MYRTILLO-CACTUS geometricizes** - 2½" seedlings ............
Beautiful, light blue, columnar type, usually five ribbed; a clean, colorful plant.

**NYCTOCEREUS serpentinus** - 3" to 4" rooted cuttings ............
Well known type of "Night Blooming Cereus." Recommended for dish gardens. (Fig. 111)

**O. olata var. oblongata** - 2½" rooted cuttings ............
Smooth, shiny, dark green, oblong, spineless.

**O. mamillata** - 2½" to 3" rooted cuttings ............
"Boxing Glove." Dark, brown, monstroso, club-like stems.

**O. microdasys** - 2½" to 3½" rooted cuttings ............
Small, flat stems dotted with yellow clusters of small spinelets. Very popular. (Pl. 17)

**O. monacantha** - 2½" to 3½" rooted cuttings ............
Spineless, bright green, thin stems.

**O. monacantha** - cored fruit ............
These are exceptionally fine plants. Bright green pads with four or more flat branches or "ears."

**O. schickendantzii** - 2½" to 3½" branched plants ............
Narrow tapering joints, light yellow - green, short spines.

**O. verschaffeltii** - 2½" to 3½" rooted cuttings ............
Smooth, round joints about the diameter of a pencil, bearing cylindrical leaves near the top of the stems.

**C. villa** - 2" to 2½" well branched plants ............
Cylindrical trunk; branched like a small tree.

**PELANT CACTUS** - Sco Chamaecereus silvestrii

**SILLCALILUS spinulosus - 2½" branched seedlings**
- Clusters of very thin light green stems forming an attractive clump.

**THREECOCHILUS masacana - 1" seedlings**
- This South American giant makes attractive seedlings which grow well under cultivation.

---

**SUCCULENTS**

*NOTE: Reference numbers in parentheses refer to illustrations in "SUCCULENTS FOR THE AMATEUR."*

- **ELEONIUM haworthii** - 2½" to 3" rooted cuttings
  - Large rosette type with red edged leaves. (Fig. 206)
  - **Prices:** $0.30 to $2.50

- **AFRICAN LIVING ROCK** - See Pleiospilos nolii
  - **Prices:** $0.35 to $3.00

- **RHODODENDRON salomana** - 2" to 3" plants
  - Beautifully formed rosettes of soft flexible tapered leaves.
  - **Prices:** $0.60 to $5.00

- **A. africana** - 6" to 8" plants
  - Beautiful tree like plants with yellow teeth on the margin of light green leaves.
  - **Prices:** $0.60 to $5.00

- **A. aristata** - 2½" seedlings
  - **Prices:** $0.40 to $3.50

- **LIC. africanus** - 2½" seedlings
  - **Prices:** $0.40 to $3.50

- **A. humvir** - 2½" rooted cuttings
  - Grows in rosette form. Leaves about ½" across and almost round. Light green color. This plant is distinct because of the wiry, hard texture of its cylindrical bright green leaves.
  - **Prices:** $0.50 to $4.00

- **CORN COB CACTUS** - See Euphorbia submammillaris
  - **Prices:** $0.35 to $3.00

- **CHLSSULUM albiflora** - 2½" rooted cuttings
  - Dark green, oblong leaves deeply edged with intense dark red. One of the most colorful of all Succulents.
  - **Prices:** $0.35 to $3.00

- **C. arborescens** - 4" to 5" rooted cuttings in primo condition
  - Round, thick shiny green leaves edged with red. (Fig. 151)
  - **Prices:** $0.35 to $3.00

- **C. arborescens** - 6" to 7" heavily branched field grown
  - Samples sent on request.
  - **Prices:** $0.75 to $6.00

- **C. perforata** - 2½" to 3½" rooted cuttings
  - "Rosary Plant." (Fig. 5)
  - **Prices:** $0.40 to $3.50

- **C. tetraboma** - 3½" to 4½" rooted cuttings
  - Grows into symmetrical, miniature branched tree with conical green leaves in four cornered arrangements.
  - **Prices:** $0.30 to $2.50
ECHIVLRIA dorenborgii - 1½" to 2" rooted cuttings .......
Compact, silvery white with a small
point of red on the tip of each leaf.
(Fig. Pl. 43)

E. elegans - 2" rooted cuttings ..................
Very attractive, compact, silvery white
rosette. (Fig. 153)

E. macrantha - 2" ...................................
Bright green leaves, edged with dark maroon.

E. multiculmis - 2" rooted cuttings .............
Leaves almost round, reddish, metallic.
(Fig. 162)

E. perbella hybrid - 2" to 3" rooted cuttings ....
Grows exceptionally well. Very firm, light
green leaves.

E. pulv-olivcr - 2½" to 2½" rooted cuttings ........
Long, tapers, felted, flexible leaves
 tipped with red.

E. scd-olivcr - 2½" rooted cuttings .............
Very attractive plant. Similar to E. setosa
except the leaves are longer, thinner and
tipped with red.

E. silius - 2½" to 3" rooted cuttings .............
Light yellow-green, thick leaves tined
with red.

E. hermientiana - 4" to 5" ..........................
Three-angled, columnar plant with marbled
surface and ornamented with small rows of
leaves on the angles.

E. hermientiana - 6" rooted cuttings .............

E. pseudocactus - 3" to 4" rooted cuttings ........
Stems angled, light green plainly marbled
with yellow. (Fig. 219)

E. sub-mamillaris - 2" rooted cuttings ...........
Called the "Corn Cob Cactus" because it
looks like a small, green corn cob. Very
popular.

Faucaria tigrina - 1½" seedlings ........................
"Tiger's Jaw." Leaves marbled gray-green
with white tooth.

F. tuberculosa - 1½" seedlings ........................
Wide brown leaves thickly covered with
large tubercles, white dot in center, white
tooth on ridges. (Fig. 93)

Felt Plant - Soc Kalanchoe beharonsis

Kalanchoe fedtschenkoi - rooted cuttings ...........
Fawlish, scalloped leaves. (Fig. 187)

K. beharonsis (Cyn. Kitchingia mindakensis) - 4" rooted
 CUTTINGS .................................
The "Felt Plant." Large, scalloped, felt-
 like leaves, brown on upper side and silvery
 underneath. (Fig. 186)
KALANCHOE pilosa - 2" to 2½" plants
(Syn. tomentosa) "Plush Plant." Attractive
wide thickly felted leaves, scalloped tips
marked with distinct brown spots. These un-
usual characteristics sell this plant on
right. (Fig. 105)

PACHYPHYTUM compactum - 1"
Close-set, cylindrical, blue-gray leaves
with silver white markings give the plant
an angled effect. (Fig. 174)

PACHYVERIA opuntii - 2½" rooted cuttings
Oblong, rounded, bluish leaves overlaid
with white powder.

PLLIOSPILOS bolusii - 1½" to 2"
Initiates pieces of granite; always
excites curiosity. (Fig. 25)

P. nolii - 1" to 1½" seedlings
"African Living Rock." Leaves nearly
round, reddish brown in color.

P. simulans - 1½" to 2"
Similar to P. bolusii, but the thick leaves
are flat on top, triangular below.

PLUSH PLANT - See Kalanchoe pilosa

FORTULCERIA afric - 3" to 4" rooted cuttings
Small, shiny leaves on reddish stem,
branching like a small tree. (Fig. 26h)

P. afric - 6" to 8" rooted cuttings

PUYA chilensis - 3" seedlings
Striking plant of the pineapple family,
leaves very thin, light green on upper
side, silvery gray underneath.

P. chilensis - 5" to 6" plants

ROSARY PLANT - See Crassula perforata

SUCULEAdolphii - 2½" rooted cuttings
Colorful, waxy, yellow, thick, oblong
leaves. (Fig. 51)

S. guatemalense - rooted cuttings
Stems densely covered with berry like leaves,
shiny green tinged red. (Fig. 195-A)

S. pachyphyllum - rooted cuttings
Similar to S. guatemalense but leaves are
cylindrical light gray tipped pink to red.
(Fig. 195)

S. traerosea - 2½" to 3" rooted cuttings
A very attractive, chalky white plant
forming small rosettes. (Fig. 195)

S. winkleri - 2" branched plants
Small, light green rosette. (Fig. 195)

SkelARVIVUM calcarum - 2" rooted cuttings
Elegant, small, rosette plant with numerous
short broad, gray leaves sharply tipped
with dull crimson. (Fig. 213)

TIGER JAW - See Faucaria tigrina
